

## How to Set Up Network Access in the Dorm

- **Obtain an IP address automatically (DHCP)**

Step 1: Obtain an IP address automatically (DHCP)

Step 2: Open your browser → Fill in <http://www.ntust.edu.tw> → Auto redirect to register IP web → Log in with student id, email password and authentication code → Choose 'Register' → Please wait a minute and will redirect to NTUST web site automatically.

※ Under normal conditions, your computer will automatically connect to the network after 1 minute. If your computer can't access to the internet after 1 minute, please set the IP information to your computer directly.
